# Development And Application Of Medical Furniture

## 解读医用家具发展及应用

医用家具是近年来才出现的概念，在二十世纪八十年代之前，医用系统的家具的制作基本上与普通家具没有什么大的区别。随着近代医学技术的发展，人们逐渐开始关注医用家具的功能性和医院建设空间环境的设计。从二十世纪九十年代开始，我国的医用家具工业开始出现。

### 医用家具的现在

应该说，现代化医院意味着是什么，众所周知，但它不应是句空洞的口号，对于从事医用家具工业的人员来说，重要的是必须意识到有一个设计概念彻底更新的需要，停留在过去从配合功能布局与造型处理的传统设计制作深度已大大不能满足与适应高新技术的日新月异的发展与现代医用管理及服务体系的需求了。

随着人们对医用技术和环境要求的提高，门诊、急诊、病房等医用空间急需重新规划。基于“灵活高效的管理各种医院家具、设施，为医护人员、患者、患者家属等营造更好的治疗体验环境”理念，“卫域”将模块化系统家具“挂”在墙上，掀起了医用家具革命。

“卫域”可根据实际需要进行组合，因其具有高度的灵活性，可被运用于病房、产房急诊室、检查室、重症监护室、医护人员工作区等。

医用家具的设计要与整体医用建筑设计相结合，这是一个复杂、综合型的项目。“卫域”设计团队从不同角度，全方位观察医院的各种环境，了解医院需求，为病人和医护人员创造最理想的生理和心理环境。“关怀”是所有环境的基础，医用空间更应该强调这一点。以人为本、模块化、对新科技的接受度以及可调性，让“卫域”能从容应对医用环境的变化，并能根据不同的医用目的进行自由组合，大大减少了施工和安装成本，更加经济和环保。

医用领域的家具需要考虑的另一个要素是，有效预防病菌感染和疾病传播。家具设计师不能让家具成为有害细菌滋生传播的场所。因此，“卫域”有别于安放在地面上的传统家具，“依靠支架附着在墙面”是“卫域”最具革命性的创新。“卫域”的独特设计节约了室内面积，让医用设备有了更多的放置空间，医护人员拥有更舒适的工作区域；家具挂在墙上，使保洁员能快速、彻底地清洁家具下的地面；此外，让空间开阔，还具有别具一格的美感。

### “卫域”四大独特设计思路：

1. 模块化带来的灵活性
2. 方便消毒，防止病菌传播
3. 基于提高医用效率的人性化设计
4. 妙用轨道，节约空间

The concept of medical furniture emerged in recent years. Before the 1980s, medical furniture is basically the same as normal furniture. As modern technology develops, people begin to work on the functions of medical furniture and the design of hospital environment. After the 1990s, the medical furniture industry started in China.

### Current situation of medical furniture

What does a modern hospital represents, For people who work in medical furniture industry, it is about the upgrading of design concept. The previous design and manufacture technology of medical furniture, which focus on functions and appearance, can no longer satisfy the developing management and services of modern medical system.

As people's demand for medical technology and environment increase, the clinic and inpatient ward should have new arrangement. According to the service aim of VOU, which requires efficient management of various of medical furniture, and the ideal environment for medical staff, patient and relatives, the company hangs the module furniture on the wall, and started the revolution of medical furniture.

The product of VOU can be combined in various way to satisfy the demand of ward, clinic, inspection room, ICU and working area of medical staff.

The design of medical furniture should be compatible with the architectural design of hospital. Therefore, it is a complex and comprehensive project. The designers of VOU study the hospital environment as well as the demand, creating an ideal environment for patients and medical staff both physically and mentally. Caring is the foundation of all places, especially for medical space. Because of its people oriented idea, module design, and the acceptance of new technology, VOU meets the demand of various medical environment with different groups of medical furniture. This reduces the costs of installation and achieves environmental protection.

Another essential element for medical furniture is anti-bacteria and contagion prevention. The furniture designer won't allow their design to be the breeding ground of bacteria. Therefore, the product of VOU was installed on the wall with frame, rather than being placed on the ground. The revolutionary design saves space for storage and allows the medical staff to have comfortable working area. Hanging the furniture on the wall also makes it easier for the cleaning staff and makes the space concise and beautiful.

### Four design idea of VOU

1. Flexibility of module design
2. Easy sterilization, contagion prevention
3. Humanitarian design which improves medical efficiency
4. Smart application of guide-rail which saves space.

# Special Material Of Medical Furniture

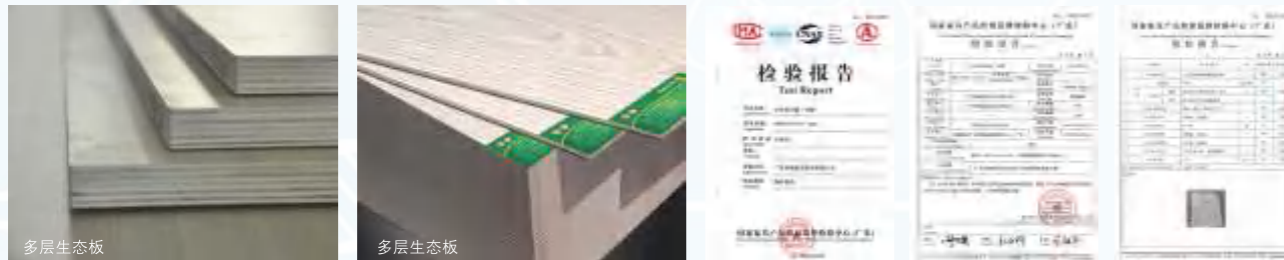

## 医用家具材料的特殊性

我司开发产品所用的原材料 The raw materials used by the Division I products:

### ① 基材：多层生态板 Multi-layer ecological board

多层生态板，由行业内众多技术专家，共同研发的一种新型环保、引领家私更新换代的产品。其具有防潮性好，变形小，强度大，内在质量好（割锯后孔洞小、不分层），平整度高，环保等级达到 E1 级等性能。在自然资源日渐匮乏、环境屡遭破坏的今天，天然材料制成，消耗最少资源、能源、低人工处理、可回收再生的生态板材成为家具材料的发展趋势。

Multi-layer ecological board, by many in the industry technical experts, to develop a new type of environmental protection, leading furniture upgrading products. It has good moisture resistance, small deformation, strength, inner quality small holes, not hierarchical after (saws), high flatness, environmental protection level to reach E1 level performance. In increasingly scarce natural resources and environment have been damaged today, natural materials, consume the least resources, low energy, artificial processing, can be recycling ecological plank to become the development trend of furniture material.

### ② 基材：防潮实木颗粒板 Moisture proof solid wood particle board

实木颗粒板是由木材或木杆，原木打碎，两边使用细密木纤维，中间夹长质木纤维，施加胶粘剂后在热力和压力作用下胶合成的人造板，面板饰面为三聚氰胺饰面，其截面呈现蜂窝状板材。实木颗粒板作为一种新型、高档环保的基材被欧美国家家具生产商所广泛采用，国内高档板式家具市场也开始大面积采用这种板材。

Solid wood particle board is a wood-based board made of wood or wood rod and log broken, with fine wood fiber on both sides and long wood fiber in the middle. After applying adhesive, it is glued under the action of heat and pressure. The face surface is melamine facing, or the section shows honeycomb panel. Solid wood particle board as a new, high-grade environmental protection of the base material by the European and American countries furniture manufacturers are widely used, the domestic high-grade board furniture market also began to use this kind of board.

### ③ 贴面：我司战略合作伙伴—Formica

富美家 @ 集团坚持秉承可持续发展的宗旨，开发和创造新型室内装饰材料。这与我司的设计理念（时尚、环保、简洁）相吻合，我们已达成共识成为战略合作伙伴，携手打造一个更加健康的医疗环境。

Formica @ group insist on adhering to the principle of sustainable development, develop and create new interior decoration material. This with our design concept, fashionable, environmental protection, the succinct), we have reached a consensus to become strategic partners, hand in hand to create a healthy medical environment.

### 抗菌板 Formica antibacterial board

富美家抗菌板经过严格的国际标准测试，能有效抵抗多种微生物，适用于各种环境，在两次清洁间保持产品表面更加卫生，抵抗感染。常见应用领域包括：医疗行业、美容机构等公共设施。

Formica Protec of the international standard through strict test, can effectively resist a variety of microorganisms, applicable to various environment, maintain between two clean product surface more health, resistance to infection. Common applications include: health care, beauty institutions and other public facilities.

### 理化板 Formica Physiochemical board

理化板是以抗倍特板材为基材，在抗倍特板的表面经过特殊处理，使得理化板具备了超强的耐腐蚀的功能，泛应用于医院,化学实验室工作台面及对表面要求高的工作台等场所，理化板具有优异的耐冲击性、耐水、耐湿性、耐药性、耐热性、耐磨性等优点。  
Formica @ physiochemical board is to deltamethrin resistant plate as a substrate, in anti Beite plate surface after special treatment, making the processing board has strong corrosion function be suffused with to hospital, working in the chemistry lab table and on the surface of the high demand on the workbench and other places, physiochemical board has excellent resistance to impact resistance, water resistance, moisture resistance, heat resistance, abrasion resistance and other

### ④ 台面：人造石·石英石·理化板 Artificial stone, quartz stone, physiochemical board

#### 人造石 Opaly Artificial stone

亚克力人造石具有高韧性，不易开裂变形：拉伸、弯曲冲击等物理性能高于普通人造石 20% 以上；环保无毒、无辐射：采用纯净优质矿粉作为填料，不会对人体产生有害辐射作用；耐腐蚀：复合亚克力板氧指数达 41%，耐化学腐蚀、耐污染；加工性能更好：加工顺畅，加工过程中灰尘少，可作异形结构加工，特别是弯曲加工。  
Opaly @ artificial Stone has high toughness and is not prone to cracking and deformation: physical properties such as tensile and bending impacts are more than 20 % higher than ordinary artificial stones; Environmental protection non-toxic, no radiation: using pure and high-quality mineral powder as a filler, will not produce harmful radiation effects on the human body; Corrosion resistance: The oxygen index of composite acrylic plate reached 41 %, resistant to chemical corrosion and pollution; The processing performance is better: the processing is smooth, the dust in the processing process is less, and it can be used for special-shaped structure processing, especially bending processing.

#### 电解钢板 Electrolytic steel plate

电解钢板，利用电解，在制品表面形成均匀、致密、结合良好的金属或合金沉积层的过程。与其他金属相比，锌是相对便宜而又易镀膜的一种金属，属低值防蚀电镀层。被广泛用于保护钢铁件，特别是防止大气腐蚀，并用于装饰。镀覆技术包括槽镀、滚镀、自动镀和连续镀。

### ⑤ 其他特殊部件：不锈钢 Other special components: stainless steel

不锈钢板表面光洁，维护简单，清洁方便，有较高的塑性、韧性和机械强度，耐酸、碱性气体、溶液和其他介质的腐蚀。表面美观以及使用可能性多样化，医院用具常用到此材料。

Surface finish, stainless steel plate, simple maintenance, convenient cleaning, high plasticity, toughness and mechanical strength, corrosion resistance, alkaline gas, solution and other media. The surface appearance and the use of likelihood of diversification, hospital equipment commonly used this material.

### ⑥ 五金配件：DTC 或 BMB

我司提供的产品所使用的五金配件均采用 DTC 或 BMB 等知名品牌，柜门都采用阻尼铰链，开关声音小，无噪音；抽屉采用静音三节导轨，抽拉顺畅。

DTC or BMB and other well-known brands of hardware fittings used in our products are used in. The door of the damping hinge, small voice of the switch, no noise; drawer with mute section three rail, pumping and pulling smoothly.

导轨：三节静音导轨，托底导轨 Guide: Three section mute rail, Rail support

铰链：阻尼铰链、翻门支撑 Hinge: hinge, door turning support

口腔治疗柜组合

在现代牙科治疗室中，牙科组合柜、操作台、活动推柜、已经是口腔科室的重要医用家具。医生借助专业牙科综合治疗机（牙椅）对患者进行检查诊疗，牙科移动推车灵活方便，提升护士配合治疗的效率和速度。”VOU卫域“研发的牙科边柜和操作柜，材料具有耐用、耐污染、耐腐蚀、环保健康、符合人体工学等特点，深受口腔专业医生喜爱。

In the modern dental treatment room, dental combination cabinet, operating platform, and movable cabinet are already the important medical furniture in the department of stomatology. The doctor can check and treat patients with professional dental multipurpose therapy unit (dental chair). The dental mobile cart is flexible and convenient, which can improve the efficiency and speed of nurses' cooperation with the treatment. The dental side cabinets and operating cabinets researched and developed by "VOU+" are made of durable, pollution-resistant, corrosion-resistant, environmental-friendly, healthy, and ergonomic materials, which are deeply loved by the doctors of stomatology department.

### 关于候诊室安全性考虑：Safety in Waiting Area

等候椅安全性研发：针对医院特殊环境，对全国多家三甲医院候诊区观察研究，结合医护人员专业建议，“VOU+卫域”将等候椅的安全性列为重点因素，光滑安全的边角，电器安全认证，板料防火安全测试。等候椅的椅脚对医用地胶防护，等候椅靠背增加抑菌材料，提升医院院感控制水平。

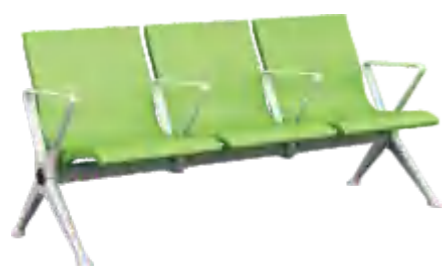

Research and development of waiting chair's safety: In view of the special environment of the hospital, the observation and research on the waiting areas of many Grade A and Class 3 hospitals in the country were conducted, in combination with the professional advice of medical staff, "VOU+" regards the safety of the waiting chair as a key factor, which focuses on smooth and secure corners, electrical safety certification, fire safety test on board material, etc. The feet of waiting chair are equipped with protection for the medical floor, the backrest is added with the antibacterial material, to enhance the level of the hospital's sense of control.

等候椅

输液大厅是用于急诊、门诊的静脉输液的治疗单元。实际设计时可多元化应用，需与皮试肌注室、护士站、输液配剂室临近。输液椅要舒适满足长时静座需要，配置可调节输液架，扶手位配茶杯托架，带智能无线充电的杂志柜，高端医院还配置隐私隔屏形成独立空间。

The infusion hall is a therapeutic unit for intravenous infusion in emergency and outpatient clinics. In practical design, it can be used in a diversified manner, which needs to be close to the skin test injection room, the nurse station and the infusion dispensing room. The infusion chair needs to be comfortable to meet the needs of the long-term static seat, and equipped with an adjustable infusion support, and the handrail position is equipped with a cup bracket, a magazine cabinet with intelligent wireless charging. The one for high-end hospital, it's also equipped with a screen to form an independent space.

医院建设的发展，各地市县妇幼卫生院升级为妇幼保健院，省妇幼保健院新建省级妇女儿童医学中心，规模和体量更大。“VOU+卫域”研发设计出多款妇科护士站、儿科护士站，满足妇幼保健院、妇女儿童医学中心建设项目的需求。

With the development of hospital construction, the maternal and child health centers in county and city levels have been upgraded to the maternal and child healthcare hospitals. The provincial maternal and child healthcare hospital has recently formed the provincial maternal and child medical center, with a larger scale and volume. "VOU+" has developed and designed multiple gynecologic and pediatric nurse stations to meet the needs of building the maternal and child healthcare hospital, and the maternal and child medical center.

U形护士站  
规格:W6000/2500xD750xH1150

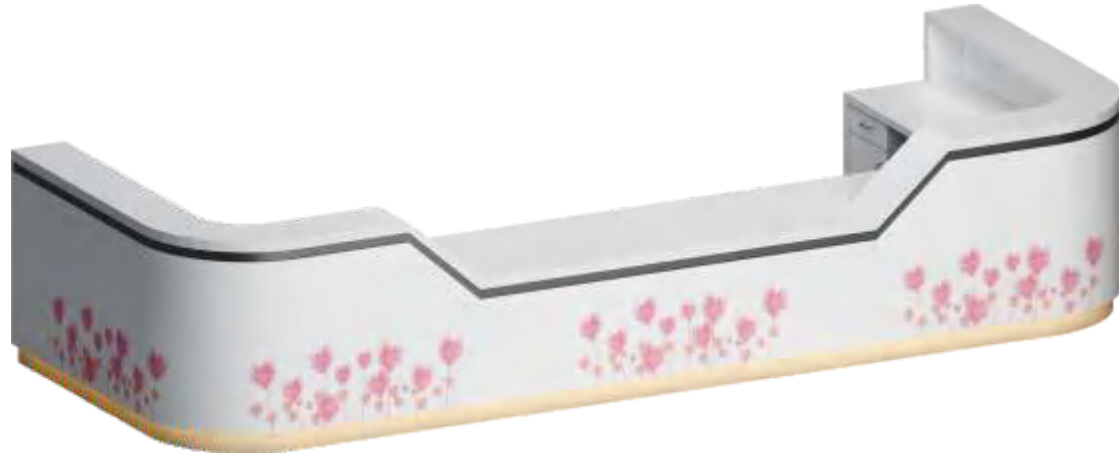

直形护士站  
规格:W6000xD750xH1150

“VOU+卫域”针对妇女儿童的不同心理特征，推出了多款妇科医用家具产品。设计师通过国际通用潘通色(PANTONE)的分析，选择了适合女性的“粉红”颜色为妇科产品系列的装饰色。

"VOU+" has introduced multiple gynecological medical furniture products for different psychological features of women and children. The designer chose pink as the decorative color of the gynecological products via the analysis of the commonly used PANTONE in the world.

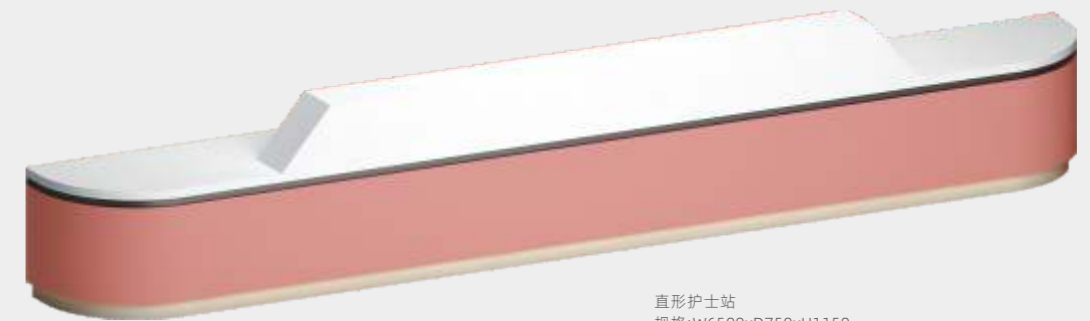

U形护士站  
规格:W5500/2000xD750xH1150

针对妇幼保健医院的特色，妇科护士站配有装饰花，台面做了高度降低，符合女性人体工学。吸顶吊楣灯光带增加护士工作区域照度，抑菌人造石台面，安全圆角，活动主机底柜，体现了卫域让医患关系更加融合和温馨设计思想！

In response to the characteristics of the Maternal and Child Health Hospital, the gynecology nurse station is equipped with decorative flowers, the height of the table is reduced, which is in line with the female ergonomics. The ceiling light belt increases the illumination of the working area of the nurses, the antibacterial artificial stone table, the safe rounded corner, the movable host cabinet at the bottom, which reflects the design thoughts of making doctor-patient relationship more harmonious and warmer!

妇科门诊患者在一定程度上因疾病或者其他因素易产生不良心理状态，因此在诊室的设计及布局等方面应考虑与普通诊室的区别。妇科诊室应更加注重患者隐私的保护。此外，检查区的操作行为较多，应做好洁污分区。

To a certain extent, gynecological outpatients are prone to bad mental state due to disease or other factors. Therefore, the differences between the outpatient clinic and the general clinic should be considered in the design and layout of the clinic. Gynecological clinics should pay more attention to the protection of patients' privacy. In addition, there are many operations in the inspection area, so we should do a good job in cleaning areas.

妇科门诊涉及性与生殖方面内容，与其他门诊存在明显差异。如何维护女性尊严，保护患者隐私，降低因病情未知而产生的紧张不安情绪？“VOU+卫域”设计师针对妇科诊室特殊性，用粉红装饰色的适应妇女生理和心理的变化。

The gynecological clinic involves sex and reproduction, which is obvious different from other clinics. How to maintain the dignity of women, protect the privacy of patients, and reduce the nervousness caused by unknown conditions? For the particularity of the gynecological clinic, the designer of "VOU" uses pink as decorative color to fit the physiological and psychological changes of women.

儿科护士站以优美的曲线造型为主,搭配活泼俏皮的卡通图案,活跃的色彩,有效降低婴幼儿就医的恐惧和不安情绪,更利于儿科医护诊疗工作进行。

The pediatric nurse station mainly adopts the beautiful curve shape, with lively and playful cartoon patterns, active colors, which can effectively reduce the fear and anxiety of children in the process of medical treatment, which is more conducive to the medical care and treatment of pediatric department.

护士站 VOU-N56506  
规格:W4460xD1460xH1150

在输液椅人性化的设计上，我们考虑到儿童在输液过程需要成人的陪护，儿科输液椅设计两人位，方便家属的使用，加入了收纳柜，后背垫放置物品功能。

In the humanized design of the infusion chair, we consider that children need adult escort during the infusion process. Pediatric infusion chairs are designed for two people to facilitate the use of family members. The storage cabinet is added and the back cushion is placed with function of items.

儿童输液椅  
规格:W1000xD600xH1050

儿童输液椅  
规格:W1200xD1200xH1050

充分考虑青少年儿童乐观好动天性，儿科所有系列产品均有安全倒角和光滑设计，采用安全材料，多彩搭配，卡通形象，符合儿童心理，降低婴幼儿就医恐惧和不安，将医院的儿科区域打造成孩童乐园，本款儿科护士站就是最好的设计体现。

Full consideration is given to the optimistic and active nature of children, safe angle and smooth design are adopted for all the pediatric products. The use of safety materials, colorful collocation, and cartoon images are suitable for children's psychology, which can reduce the fear and anxiety of children in the process of medical treatment, make the hospital's pediatric area into children's playground. This kind of pediatric nurse station is the best embodiment of the design.

运用整体医院家具设计风格，发挥色彩的辅助治疗作用，主要针对病患婴幼儿、不同年龄的儿童特征，营造活泼可爱、舒适温馨、安全现代的诊疗场景氛围。

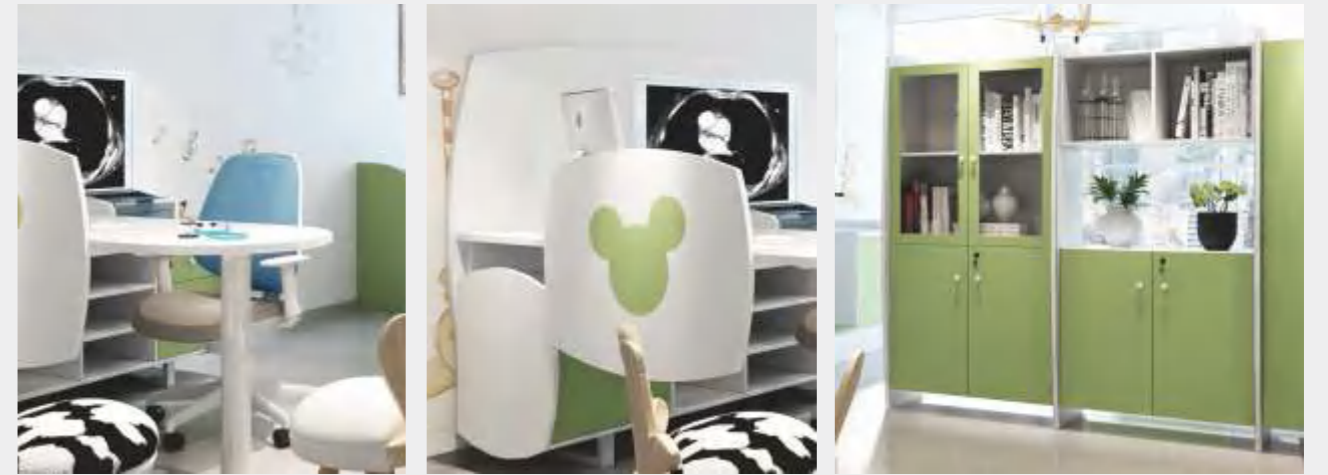

With the overall furniture style of the hospital, we exert the supportive therapy effect of color by creating lovely, comfortable, warm and safe diagnosis and therapy environment for infants and kids in different ages and characteristics.

结合国际流行色和儿童心理特点，将“豆绿”PANTONE351U应用在本季儿童诊室产品中。豆绿色是清新希望、平静安全、健康生命之色，很好的缓解儿童对医院的“白色畏惧”，装饰卡通能增加童真，获得乐趣。

Combining with the characteristics of international popular color and children's psychological characteristics, the "Bean Green" (PANTONE351U) is applied in this series of children's clinic room products. Bean green refers to fresh hope, peace and safety, healthy life, which can help alleviate the children's "fear of white" of hospitals, and the decorative cartoons can increase a sense of innocence, so that children can enjoy the fun in this area.
